Experience

Freelance Software Engineer | Upwork

Jan 2025 – Present

Remote

- Resolved 12+ production-blocking bugs with average turnaround under 24 hours, restoring client workflows fast.
- Rebuilt internal release automation, cutting 15+ manual steps and reclaiming roughly 4 engineering hours per week for the team.
- Shipped 3 client-facing features end-to-end across React, TypeScript, and Node.js stacks, scoping requirements directly with non-technical stakeholders before writing a line of code.
- Wrote technical documentation and API specs for client handoff, reducing onboarding time for new contributors from 1 week to 2 days.

Software Monitoring Engineer | Wind's Gate Philippines

Jun 2025 – Jan 2026

Cebu City

- Caught and escalated 25+ incidents across 8 production services before they reached end users, owning live uptime visibility for the team.
- Traced incidents from raw logs to root cause and redesigned the team's incident report format, cutting average triage time by 30%.
- Authored 8+ runbooks documenting recovery procedures for recurring incidents, enabling on-call engineers to resolve Tier 1 issues without escalation.

Software Engineer Intern | Alliance Software Inc.

Jun 2025 – Jul 2025

Cebu City

- Delivered 5 production features into live client codebases at one of the Philippines' largest software firms.
- Worked across the full stack using C# and ASP.NET MVC on enterprise applications used by thousands of daily users.
- Participated in code reviews, pair programming, and agile ceremonies with senior engineers.

Full-Stack Developer Intern | Bayoa Analytics

Sep 2024 – Nov 2024

Remote

- Diagnosed N+1 query patterns and schema bottlenecks, cutting API response time from 800ms to 150ms on top-traffic endpoints.
- Built 10+ REST API endpoints using Node.js and Express to power a new analytics dashboard feature.
- Wrote reusable React components with TypeScript and Tailwind CSS, speeding up feature delivery for downstream teams.

Projects

FireCheck | GIS and Field Survey App

github.com/jlescarlan11/firecheck

Flutter, Dart, Riverpod, Drift, Mapbox SDK, Supabase, WorkManager

- Shipped MVP across 7 release phases as sole developer, engineering an outbox-pattern sync engine with two-phase photo upload, WorkManager retry/backoff, and 409 bundle-export fallback to replace 2 legacy paper-and-tablet workflows with a single offline-first Android tool.

HEALTH | AI-Assisted Triage and Offline Care Guide

github.com/jlescarlan11/health

React Native, Node.js, Express, Prisma, PostgreSQL, SQLite

- Led a 5-man team to Semi-Finalist (top 15 of 200+ teams) at the 1st Naga City Mayoral Hackathon, building a civic health app that safety-gates AI triage through deterministic logic and keeps 100% of core features usable offline via SQLite local persistence.

PriceCraft | Live Profit Pricing Calculator

github.com/jlescarlan11/pricecraft

React, TypeScript, Supabase, Vitest

- Built a live profit pricing calculator for small-business operators with markup and profit margin strategies, engineering an edge-case-hardened calculation engine (zero-cost, negative margins, rounding) so non-technical users get correct prices on the first try.

Education

B.S. Computer Science

Aug 2025 – Present

University of the Philippines

- University Scholar (academic honor); Semi-Finalist, 1st Naga City Mayoral Hackathon

B.S. Mathematics

Sep 2022 – Jun 2025

University of the Philippines

- College Scholar (academic honor); DOST Junior Level Science Scholarship (JLSS) Awardee

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, Dart, C, C++, C#, Go, SQL, Bash

Frameworks and Libraries: React, Next.js, React Native, Flutter, Tailwind CSS, Node.js, Express.js, Spring Boot, ASP.NET Core MVC, Prisma, Drizzle, Drift, TanStack Query, Redux, Riverpod

Infrastructure and Tools: PostgreSQL, PostGIS, MySQL, MongoDB, SQLite, Redis, Elasticsearch, Docker, Kubernetes, GitHub Actions, CI/CD, AWS, Supabase, Git, Postman, Jira, Figma, Mapbox, Vitest

Certifications

Amazon Junior Software Developer with Generative AI <i>Coursera Specialization</i>	<i>Oct 2025</i>
Agile Project Management <i>Google via Coursera</i>	<i>Sep 2025</i>
